The Resolution to Come Up Today-Senator Plumb Argues for Reduction of Duty on Mexican Lead Ores-Representative Watson Dies Suddenly - Capital Notes.

WASHINGTON, August 25.-The senate met at 10 a.m. The resolutions heretofore offered by Mr. Plumb to prohibit the sale of spiritu-ous, vinous or malt liquors in the senate wing of the capitol was taken up, but in the absence of Messrs Blair and Barbour who had offered amendments, it went

over till tomorrow.

The tariff bill was then taken up. Mr. Aldrich referred to the All Aldrich referred to the unusual length of the discussion that has taken place on the tariff bill and said that that fact and the knowledge shared by all that the business of the country was in a state

fact and the knowledge shared by all that the business of the country was in a state of anxious suspense, awaiting the result of the senate's deliberations, led him to ask the senators on the other side to consider the question of fixing the date of closing the debate and of having a final vote on the passage of the bill.

He made this suggestion not for the purpose of preventing ample discussion on the remaining paragraphs of the bill, but because he believed the orderly disposition of the public business as well as the convenience of senators required an arangement of that kind. He would be glad to hear from senators on the other side if they had any proposition to make in that it had been the honored custom of the senate on all revenue measures and legislation necessary for the conduct of the government that after full and free discussion, the senate came to some agreement as to the time for taking the vote. That custom had always trusted the senate to discuss fairly and freely all such researces. the senate to discuss fairly and freely all such measures. He therefore thought that he was perfectly at liberty to speak for his collengues, when he said they would be very glad if the senator in charge of the bill had any suggestion to make, that he would make it now.

Mr. Adrich-H. have prepared a proposi-

Mr. Aldrich—I have prepared a proposi-tion which I ask unanimous consent to

tion which I ask unanimous consent to have adopted.

The paper was read. It proposed that the consideration of the tariff-bill shall be continued to the exclusion of all other business except appropriation bills and conference reports to and including September 1, subject to general debate and during September 2, 3 and 4 subject to the five nature rule, that and 4 subject to the five minute rule; that and 4, subject to the five minute rule: that no senator shall speak on any one question more than once; and that on September 5 and thereafter consideration shall be continued on the bill or amendments without debate and including the third teading, when three hours shall be almost of general debate and the final vote shall be taken on its passage.

Mr. Cullom-On what date is the final vote that the taken on its passage.

Vote to be taken?

Mr. Aldrich—My suggestion is that the general debate shall close on the lst of Mr. Gorman suggested that it would be disfactory to the Democratic side of the

chamber if the time for general debate were extended to September 3, then have were extended to September 8, then that three days for the five minute debate.

Mr. Aldrich expressed his willingness to have the memorandum modified as suggested by Mr. Gorman. It was therefore gested by Mr. Gorman the general distributions, Goodland. modified so as to continue the general dis-cussion up to and including Wednesday, September 3, to have five minutes de-bate on Thursday, the 4th, Friday, the 5th and Saturday, the 6th, and to fix Monday, Representative Watson, of Pennsylvania, eptember S, and thereafter for considera tion of the bill and amendments, without delate, then three hours to be allowed to each for general debate, and then the final

vote to be taken on the passage of the bill.

The presiding officer (Mr. Ingalls) asked whether there was any objection to having Mr. Plumb objected and asked to have the matter go over until tomorrow. It seemed to him that the time fixed in the order was too short. At all events there should be some other division of time for those who were prepared to make sugges-tion on that point. The most important part of the debate had yet to come before the senate, for instance, about what ens to be done in restraint of trusts, about eciprocity, about the effect of the bill on yevenine and about whether there would be money enough to carry on the govern-ment if the bill becomes a law. All these things bad to be taken into account. While he was as willing to take his chances as the other senators be did not care to do so until he had at least had time to consider the proposition. He had not known anything about it in advance except in a casual way, and he thought that it should go over

Mr. Aldrich then offered the memorandum in the form of an amendment for a modification of the rules in accordance with the memorandum.

Mr. German-I trust that the senator from Blode Island will not pursue that course. I don't think that it will be nec-essary. I am entirely within bounds when I say that every senator on this side will agree to the terms proposed.

Mr. Addreib-I do not think that the arrangement ought to fail from the objec-

tion of a semator of a uninority if it is satisfactory to a large majority of the body, and it is for the purpose of avoiding the possibility of that, that I have given

Mr. Gorman suggested that if the daily hours of sittings were not sufficient then night sessions might be held. Mr. Harris said that he understood Mr.

Plumb's object in having the order go over till temorrow to be only that le-might look into it. In all human prob-ability the senator from Rhode Island could get unanimous consent to the order

notice, but said he would ask for unaniconsent temorrow morning taciff bill was again take B at , the pending question being on the paragraph imposing a duty of U₅ cents per pound on lead are and lead dross; provided that sil-ver ore and all other ores containing lead shall pay a duty of U₅ cents per pound on the lead contained therein, according to

sample and assay at port of entry.

Mr. Plumb moved to amend the paragraph by reducing the duty on lead ore from 15 cents a pound to 5 of a cent. He thought that the senate was coming to a point where the system of protection would result in breaking down certain would result in breaking down certain ment has finally been reached by the other industries and where the sundry eight conferes upon the para larger industries were to destroy the graphs relating to the irrigation and publications. smaller ones. After a long debate the bill was laid aside informally and the house resolution for appointment of senators and representatives to attend the funeral of the late Representative Watson was taken up. A committee to represent the senate was appointed, and the senate adjourned.

TO AID THE FARMER.

Mr. Vance Proposes Reduced Tariff on Their Purchases.

Washington, August 25 — Senator ance today proposed the following mendments to the tariff bill:
Whereas, From an early period in our history, duties upon foreign imports have been levied with the avowed purpose of promoting the interests of domestic manu-facturings, and drawbacks or rebates have been given of the duties on raw materials used in the manufacture of all articles exported for the same purpose, and
Whereas, For the encouragement of the
production of spirits and tobacco all internal revenue taxes are refunded upon those

articles which are exported abroad, and

ROBINSON DECLINES TO BUN FOR GOVERNOR.

More Important Work at Hand Than Leading the Democratic Hosts.

Failing to Unite the Alliance and Bourbons He Believes Duty Has Ceased to Call Him.

Glick Thought to be the Best Man-Scarcely a Chance for Anderson's Renomination on Wednesday-Fuller Returns from Oklahoma on the Late Election-Political Notes.

LAWRENCE, Kan., August 25.—The cor-respondent drove out to ex-Governor Robinson's residence, five miles north of he city. this afternoon to ascertain whether the report that Governor Robin-son had refused to become the Democratic candidate for governor or not, if nomin-ated by the Wichita convention, was true. He said:

alled by the Wichita convention, was true. He said:

"I must positively decline to be considered a candidate. I permitted the use of my name at the State Alliance convention solely with the view to harmony in inviting all parties with similar views to unite on one ticket. This failed and now there is but one party to be satisfied. There are many men who would answer the requirements better than myself. I only listened to the call for the use of my name from a sense of duty rather than choice, and as duty no longer calls, if it ever did, I wish to be considered out of the race. I have more important matters to attend to than running for public office." The governor thinks that ex Governor Glick would be the best possible nominee.

A PRESIDENTIAL PREDICTION.

Washington, August 25.—Colonel Rickey, having successfully called the turn on recent silver speculation, clearing up 264,000 thereby, feels qualified to make a political prediction. He said today: "I am no prophet, but, far off as it is, I can 'call the turn' on the presidential nominations in '92. Mark my words, it will be Cleveland and Harrison. The battle will be waged again on the same lines and with the same leaders, but with a contrary result, for this time Grover Cleveland will come out winner. My prediction is based on these reasons. The present incumbent of the white house will have 100,000 office-holders working actively for his renomination. He will have some of the most eminent men in the country, who are also members of his cabinet, pulling for him with all their might. Mr. Blaine will throw his powerful influence for Mr. Harrison. The moneyed men who helped to elect him last time will be on his side again. Moreover, he has faithfully carried out, so far as he could. Republican principles and policy. The Democratic nominee will be Mr. Gleveland. Before that time arrives Governor Hill will be ont of office. If the Democratic acrry the thirreen doubtful legislative districts in New York state they can e.ect Mr. Evarts' successor, and his name will be David B. Hill. A candition precedent to Mr. Cleveland's nomination is that his own state should be for him. All talk of nominating him without New York will be for him, I verily believe, but, if not, another of her favorite sons will head the ticket. I refer to Hon, William C. BAD OUTLOOK FOR ANDERSON.

CONCORDIA, Kan., August 25.—The si nation of political affairs in the Fifth on gressional district tonight would seem to indicate beyond a doubt that Jehn Anderson will fail to secure the renomination at Clay Center Wednesday, and that either Colonel Phillips or Judge Stargess will be the successful party. From private telegrams teceived here the strength of each candidate is estimated as follows: Phillips has carried Clay, 6 votes; Ottawa, 5 votes; Republic, 9: Saline, 7: Washington (part delegation), 3; giving hin 30 in all. Anderson has Dickinson county, 9 votes; Geary, 3; Reijey, 6; and Marsiail county will doubtless give him 8 more, making a total of 20. Scurgess has the Cloud delegation of 8 and has 7 of the Washington county delegates, giving him 15 votes. It will require 36 to nominate. It is safe to conclude that Anderson will not gain any additional strength after entering the congressional district tonight would seem conclude that Anderson will not gain an additional strength after entering the convention. As the Phillips and Sturges delegations are anti-Anderson, Phillips would seem to be the strongest man on theirst bailot, but should be fail to secure hrst bailot, but should be hal to secure the hemination at first. Sturgess may stand a good show by drawing to his sup-port. Anderson's strength. Colonel Phillips stated today that be felt confident that he would be successful. ALBANY, N. Y. August 25.—A reporter interviewed General Master Workman Powderly regarding the dispatch from Terre Haute saying that the strike would not be ordered by the federation. Mr. Powderly declined to talk, saying that it would not be policy for him to make any comments upon it until fully officially comments upon it until fully officially notified. Secretary Hayes said: "If the dispatch be true, it means a single-handed fight, with the Knights of Labor doing the fighting and the other organizations aiding financially."

could have been the grounds for the dis-charge of the men. On the centrary it is claimed many facts were brought out which tended to show that the discharges were the results of a preconcerted plan to drop all the men of the Knights. The men were asked what sort of persons were fil-ing their places on the Central road so far as they knew personally. The general tenor of their remarks was that the place-wers ready filled by former employees who

Third—That the policy of H. Walter Webb was despotic to that extent that outrages every principle of America ottizenship and if generally adopted would, if successful, reduce American workmen to a degraded condition of affairs.

Fourth—That the employment by H. Walter Webb of Pinkerton thieves thugs and murderers, vile wretches from the slims and brothels of New York and other cities to kill workingmen because they dared to protest against his rule and strike for their rights, is a crime of such enormity as will associate the name of H. Walter Webb forever with those who dressed in a little authority, have used their fellow men.

Fifth—That the efforts being now put forth by H. Walter Webb to destroy the Knights of Labor would, were circumstances changed, in like manner be made to destroy the organizations of engineers firemen, conductors, trainmen and switchmen, and if successful it is only a question of time when a similar effort will be made to seal the fate of other labor organiza-

for firemen.
